Protect the unit. Elevate the space.

Durable aluminium heat pump covers that provide anti-tamper protection while enhancing outdoor areas with clean, modern design across residential, commercial, and educational environments.

KEY FEATURES

- Sleek design, with (mostly) concealed screws
- Architectural grade aluminium extrusion
- Highly durable, non-rusting
- Fixing points available for attachment to floor or wall
- Very low maintenance
- Wide range of powdercoat colours available
- 10 Year Warranty (residential)
- Flat-packed for easy on-site assembly and installation
- Some Non-Standard sizes available for Chatham and Futuna Styles only
- Available NZ wide

FINDING THE RIGHT SIZE FOR YOUR COVER

Measure your Aircan unit (Width x Depth x Height). Remember to include allowances for pipework and mounting blocks.

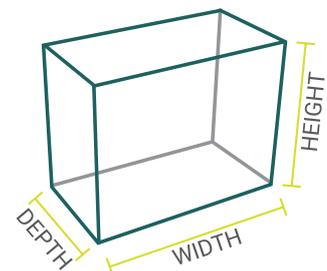

Add clearances as below:

Width - add a minimum of 130 mm to unit size.

Depth - add a minimum of 90 mm to unit size.

Height - add a minimum of 20 mm to unit size.

Allow 100 mm clearance from back of the cover to the wall, or as recommended by the manufacturer of the unit.

ALUMINIUM HEAT PUMP COVERS FOR NEW ZEALAND PROJECTS

ScreenPro specialises in premium aluminium heat pump covers designed to protect outdoor condenser units while enhancing the overall appearance of a space. Engineered for New Zealand conditions, each cover is manufactured from durable, powdercoated aluminium and incorporates integrated ventilation with a clean, modern profile.

ScreenPro transforms a functional requirement into a considered architectural element - helping reduce visual clutter and elevate outdoor presentation across residential, commercial, and educational projects.

Create tidy, cohesive outdoor environments that stand the test of time. ScreenPro covers also act as an anti-tamper barrier and are available in a wide range of Dulux powdercoat colours to suit any project.

For more information or to place an order, contact our customer support team or visit our website.

PREMIUM NEW ZEALAND CRAFTSMANSHIP

Meticulously crafted in New Zealand, each product reflects UNEX Systems' precision and dedication since 1981, embodying a legacy of quality.

IN-HOUSE POWDERCOATING & FABRICATION

With our own fabrication facilities and in-house powdercoating, ScreenPro maintains strict quality control and a consistent, high-quality finish across all products. Covers are available in a wide range of powdercoat colour options to suit your project.

THE BIGGEST RANGE

Choose from three sleek styles, six standard sizes, and 22 colour options to complement your outdoor space and project requirements.

NON-STANDARD SIZES AVAILABLE

Selected non-standard sizes are available for Chatham and Futuna styles to suit a wider range of installations.

EXCEPTIONAL SUPPORT

From selection to delivery, our dedicated customer support team is here to assist you every step of the way. Trust us to provide the guidance and technical support you need for a seamless experience.
